

BumperBoard™

Model 1999-2844

Patented other Patents Pending

Universal's new BumperBoard™ enables you to increase profits by utilizing existing space in Service Stations and C-Stores to advertise specials and other promotions. Change your message easily with the easy access front loading frame. The BumperBoard™ accepts standard 28" x 44" Message Inserts and mounts to standard 3" or 4" Bumper Guards. A second side option is available to increase advertising space on the same mounting post.

***Important Note** Prior to installation read these instructions completely. Check to make sure all parts are included. Do not substitute parts for those provided, unless specified. Failure to properly follow these instructions may result in improper operation.*

Parts List

1. BumperBoard™ Frame, for 28" x 44" posters.
2. Heavy Duty Bracket Assembly already assembly to BumperBoard™
3. Heavy Duty U-Clamp Box fabricated of 0.083" Steel. Shipped in separate box.
4. 2 U-Bolts for 3" or 4" Bumper guards, with Nuts.

Read all instructions carefully before beginning installation

1. Remove all parts from packaging and make sure that all components are accounted for.

2. Place U-Clamp Box on the frame that is already mounted on back of BumperBoard™, aligning bolt holes. U-Clamp Box may be oriented in any position for mounting in horizontal or vertical position. (See Fig. Above)
3. Once Box is aligned, fasten to frame on BumperBoard with four supplied ¼-20 Cap head screws and nuts.

Be sure that the U-Clamp box is mounted facing upwards with the open end facing up.

4. Place BumperBoard/U-Clamp Box assembly on Bumper Guard or Post in position desired. Feed U Bolts over post and through bolt holes in U-Clamp Box. Fasten with supplied nuts and tighten well to prevent slippage.
5. Once BumperBoard is mounted securely, open BumperBoard frame by flipping hinges open on all four sides. Mount sign in frame and close hinges by snapping them shut.

Sign is now ready for use.
