

Quality and Reliability, Since 1932!

VALVE FITTINGS & ACCESSORIES

SINGLE POPPET SAFETY VALVES

Application -

Maximizes safety, and prevents fuel spillage and fire hazard.

Part Number - 521, 522

UNIVERSAL
Advantage

Only from Universal! The safest safety valve!
The poppet and seat are completely independent of the top shear section, so even with the top off, the valve assures a 100% liquid tight seal.

Features -

- ✓ A 100% seal
- ✓ Unobstructed flow
- ✓ The poppet and seat are completely independent of the top shear section, so even with the top off, the valve assures a 100% liquid tight seal
- ✓ The single-link design provides ease of operation and reduced maintenance
- ✓ A stainless steel reset nut eliminates stripping the fusible link during valve reset, reducing downtime by allowing manual reset even under pressure
- ✓ All Universal Safety Valves are protected by zinc plating, assuring maximum corrosion resistance, unlike competitive products that are only painted
- ✓ An air test port allows line testing without breaking the integrity of the line
- ✓ Raised bosses provide secure anchoring

Construction -

- Zinc-plated/ E-Coated cast iron body and top
- Stainless steel spring and shaft
- Bun-N seal
